

# ALEC DELANEY

Editor & VFX Artist

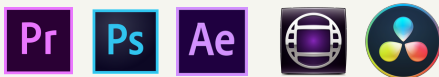

## PERSONAL PROFILE

I am an Irish Editor & VFX artist currently based in County Kildare, Ireland. Ever since I was a child I had a passion for film making. At the age of fifteen I built my first computer and started shooting and editing short movies with friends.

After secondary school I studied cinematography at Ballyfermot College of Further Education. I am currently studying Film and Television Production in Dún Laoghaire Institute of Art, Design and Technology with a major in editing & minor in cinematography.

I try to make as many films as I can while also focusing on my studies without sacrificing quality. I work with what I love, and I love my work.

## SOFTWARE

## SKILLS
