DIRECTING & WRITING

I am deeply passionate about writing and directing and have an immense appreciation for cinema and the arts. I am currently working towards a Bachelor of Arts Degree specialising in Directing for my final year in the National Film School in IADT with a minor in Television. Story and structure of story is something that has always been extremely important to me. I find writing to be a great way to express myself as well as keeping me grounded and mindful.

As an aspiring director I believe the ability to write and capture interesting and engaging stories is crucial.

I am a social butterfly and really enjoy working with people and their individual narratives on life. I would take most of my inspiration from others when it comes to script writing & directing. I enjoy establishing an off-kilter tone and would take great influence from the German expressionist movement.

I am also an actor which has catered towards my direction and communication with actors.

Winner of Best Film in a Student Category at the Richard Harris International Film Festival 2022 & The Disappear Here International Film Festival 2022

Meghan O'Shaughnessy

Assistant Director - Producer - TV

PRODUCING, ASSISTANT DIRECTING & TV

I extremely enjoy producing and love making an idea come to life, I find it easy to work with others and have strong communicative skills. Though I am very creative I am extremely logical when it comes to organising and running a smooth set.

I thoroughly enjoy assistant directing. I really love working with people and problem solving to get a film complete on time.

I have a great interest in television and am minoring in it for my Bachelor of Arts Degree in The National Film School. I have a flare for floor managing as well as camera operating.

I also have experience in production co-ordinating and assisting.
